About NSC

Northern Samar Colleges, formerly Northern Samar Academy, located along Annunciacion corner Roxas Streets, Brgy. J. P. Rizal, Catarman, Northern Samar, was established in 1949 and incorporated in 1950 in response to the clamor for a school that could meet the needs of a particular segment of the town populace. At that time, there were only two schools in town; one was a private Roman Catholic high school; another, a public agricultural school about three kilometers away from the town proper across the river. There was no bridge then connecting the town to the road going that way and it was accessible only by banca. Public buses were scarce and tricycles and pedicabs were non-existent by then. A student from town had to hike the distance after crossing the river.

ABOUT US

GETTING TO KNOW THE OFFICE OF THE REGISTRAR

OFFICE OF THE REGISTRAR

One with the University in its commitment to the quest for Truth, the Office of the Registrar is responsible for maintaining the integrity of the academic records of students under its custody, making them available upon request, subject to existing rules and regulations.

OUR VISION

“ Northern Samar Colleges as a premier school for community leaders, successful professionals, and workers with world-class technical skills and competencies. ”

OUR MISSION

- 1 Strive to reach a level of excellence in its research and teaching programs that will earn for itself a place among the most prestigious educational institutions in the area.
- 2 Adopt advance research and teaching techniques so as to become source of innovative forms of learning, as well as contribute to a better balance between the cost and quality of research, communication, and education.
- 3 Adopt its teaching programs, founded upon basic research and the study of humanities, to the actual needs of a society undergoing progressive change and of wide region promoting international cooperation.
- 4 Seek, while working closely with other Philippine institutions, wider regional and international recognition so that it can be present in intellectual policy dialogues.
- 5 Strengthen and broaden the avenues for cooperation so that it can effectively contribute to social development and obtain from various sectors of the society necessary support to carry out its extension work.
- 6 Organize itself in a manner conducive to internal efficiency and effective coordination, while keeping enough flexibility, to enable all members of the school community to contribute freely and responsibly to the fulfilment of their common tasks.
- 7 Strive to attain, as a necessary condition for its autonomous development, a level of economic self-sufficiency that will allow the school to firmly establish itself as a center of academic excellence to initiate projects, and to admit well-qualified students from the underprivileged sector of society.

OUR OBJECTIVES

Committed to building character and enhancing technical competence.

Universal Values

To provide quality education with strong adherence to time-honored universal values.

Dynamic Teaching

To enhance learning through school facilities and dynamic teaching staff.

Character Formation

To strive to build the institution as a place for character formation with a high level of participation and unity.
